Do you want to make a difference?

The work of a Chaplain can make a profound difference in the life of someone who is struggling, by nurturing the spirit and by tending to the mind, body, and soul. Clinical Pastoral Education (CPE) is the primary training method for hospital and hospice chaplains. Lutheran Senior Services is a primary provider.

This is significant. As one of the few organizations in the country to offer CPE in a senior living environment, LSS is able to give its students a way to minister on an ongoing basis. The relational experience in this context translates well for those considering congregational ministry. At the same time, the training that individuals receive at the LSS CPE Center equips them for serving as Chaplains in other contexts.

This training is open to all denominations and religious communities – to seminarians, pastors and lay people alike. LSS Clinical Pastoral Education makes a difference in the lives of those we teach and those we serve.
Do you want to learn, serve, prepare, develop, reach out to others, increase your faith, grow in your ministry skills?

Clinical Pastoral Education is an integral part of the mission of Lutheran Senior Services. By preparing others to do spiritual work, we expand our ministerial reach to even more older adults. CPE brings together the theology, skills, knowledge, and personality of the spiritual caregiver, using their attributes for important spiritual work. The LSS CPE program has a three-part focus:

• Formation – Applying one's theology to real-life experiences and discovering how our personalities affect our ministry efforts
• Competence – Leadership styles, pastoral engagement, and assessment of the spiritual needs of others
• Reflection – Development and reflection of ongoing ministerial goals

The LSS CPE program is accredited by the Association for Clinical Pastoral Education, Inc. (ACPE), a multicultural, multi-faith organization devoted to education and ministry. Lutheran Senior Services is accredited to offer Level-I and Level-II CPE, as well as Certified Educator CPE. The LSS program draws students from an expansive geographic region throughout the United States and across the globe.
